

CONSTRUCTION PIPELINE CONSTRUCTION

IMPROVING YOUR ENTERPRISE **WITH DEDICATED TALENT**

Pipeline construction companies require professionals with the technical expertise and business acumen needed to accomplish complex job tasks on-time and under-budget. With over 75 years of cumulative experience in energy & construction recruitment, The Newport Group knows how to find the experienced, dedicated professionals you need to stay competitive and grow your business. With our expertise and extensive knowledge of the energy & construction markets, we've helped hundreds of companies find their talent, spanning all applications of the pipeline construction vertical—Flex Steel/Pipe, Trenching, Repair & Maintenance Services, and Hydrovac, to name a few. What's more, our search process guarantees we only work with candidates who are **in the market**, not just "on it", so we know that every individual we present is qualified and job-ready. And we tailor our searches to meet your unique needs, ensuring your human capital investments provide an immediate, long lasting and positive return.
